Care formula

Perfect shine & longterm protection

### Reverse Side:

#### **Glänzer**

#### **Perfect shine & Longterm protection**

For all PVC floors, Stone floors, Linoleum and sealed parquet (follow the floor manufacturer's directions for cleaning and maintenance).

Not suitable for unsealed parquet, laminate, glazed tiles and stoneware tiles.

- Brilliant, streak-free cleanliness
- Refreshment of shine for stressed, dull floors
- Longterm shine and – protection without polishing

Glänzer Perfect shine with Shine refreshment:

Special PERFECT SHINE Formula contains special waxes which delivers very intensive protection and a longlasting perfect shine

#### **First application and day-to-day care:**

1. Switch under-floor heating off and wait until the floor is completely cool.
2. Pre-clean the floor
3. Apply **Glänzer undiluted** evenly on the floor using a moist, lint-free linen cloth; work in sections.
4. Leave time to get completely dry and do not walk over the floor during drying. Application can be repeated on Linoleum Floors.
5. In case of regular undiluted use of Glänzer the floor needs 1-2 times a year a basic cleaning / Removal of layers. (for removal of old layers we recommend emsal basic cleaner)

Keep out of reach of children! Protect against freezing!
